## PETRELPLUS KEYBOARD GREASE

PETRELPLUS KEYBOARD GREASE is PTFE (Teflon) thickened grease which is designed for mechanical keyboard switches it is extremely easy to work with, durable and non-migrating. As a result, this lubricant can be applied easily to elongate the life of the switches, and not be concerned about creating a short within the controller of the mechanical keyboard.

### Benefits:

- Non-migrating; won't create a short
- Makes Switches feel smooth and dampen the noise
- it is extremely easy to work with, durable and non-migrating
- extend the life of the switches
- Favorable acoustic and tactile properties

### How to use:

- Clean the switches and keyboard before lubricating, Remove all traces of the previous lubricant.
- Easy to apply with a brush or applicator
- Lightly coat the keys, avoid over application.
- Let dry and Reassemble the keyboard.
